COUNTRY Germany (Russian Zone) DATE DISTR. 25 Jan. 1952

SUBJECT Reconstruction of German Air Warning Cable Net by NO. OF PAGES 3
SCC Orders

PLACE ACQUIRED [REDACTED] 25X1A CONFIDENTIAL NO. OF ENCL'S.
(LISTED BELOW)

DATE OF INFO. [REDACTED] 25X1C SUPPLEMENT TO REPORT NO. 25X1X

25X1X

- [REDACTED] 1. An SCC order to Section II of the Berlin General Post Office administration, which was examined by source, referred to a conference held between Soviet Gds Colonel Storkov (fmu) and one Mr. Loescher (fmu), on 18 August 1951, and demanded the reconditioning or reconstruction of the cable system of the former German air warning net. The order specified all cable sections still available and stated that these were to be reclaimed while new cable sections required for the net, ordered by the SCC, were to be furnished by the SAG Kabel, cable plant in Koepenick.
2. According to the SCC order, the Soviet Zone Postal Administration was to initiate a second phase of the cable-construction project, providing for the imbedding of three pairs of cables converging at Berlin-Karlshorst (N 53/Z 94) from Rostock (M 55/O 81), Schwerin (M 54/T 46) and Perleberg (M 54/T 70); and three other pairs of cables converging at Jueterbog (N 52/E 69) from Torgau (N 52/E 64), Zwickau (N 51/K 34) and Borna (N 52/K 39). These six pairs of cable lines were to run different ways, instead of lying side by side, and were to be completed by 15 December 1951.

25X1A

3. [REDACTED] the exact course of the following four cable lines constructed during the first phase of the cable-construction project:

Ten-Pair-Core Cable Line from Berlin-Karlshorst to the Jueterbog Troop Training Grounds
